PROFESSIONAL EXPERIENCE

Technical Support Analyst

Messageware Incorporated | Mississauga, ON | Apr 2021 – Present | Hybrid

- Provided Tier 1, Tier 2, and Tier 3 support for enterprise applications and IT infrastructure, serving as an escalation point for complex incidents
- Designed and developed an internal server management tool using C# and PowerShell to streamline administration tasks across production environments
- Delivered customer training sessions during trial installations, configurations, and product rollouts
- Performed system patching, testing, and deployment of new application versions and system interfaces
- Designed and implemented Veeam backup solutions for internal disaster recovery and business continuity
- Created detailed technical documentation, knowledge base articles, and process improvement guides
- Managed and maintained internal IT infrastructure, including configuration, implementation, and system upgrades
- Troubleshoot issues within Microsoft Exchange environments, handling both simple and complex configurations
- Administered Active Directory, managing account setups, password resets, and group policy assignments

IT – Technical Support (Co-op)

Moen Incorporated | Oakville, ON | Apr 2020 – Sep 2020 | Hybrid

- Deployed and configured new PCs for employee onboarding and replacements
- Managed IT assets and inventory using company databases and tracking systems
- Supported Canada and Latin America users with desktop hardware and software issues
- Troubleshoot a variety of applications, including Adobe Cloud, SAP CustomerNet, and Microsoft Office suites
- Provided remote technical support throughout the co-op term, ensuring quick issue resolution and strong team coordination

Technology Service Centre Analyst (Co-op)

Region of Peel | Mississauga, ON | Aug 2019 – Jan 2020 | On-site

- Handled and completed 750+ IT service tickets, offering in-person and remote troubleshooting across multiple Peel locations
- Troubleshoot and repaired Windows desktops, laptops, and mobile devices, including iPads
- Maintained Active Directory accounts by performing password resets, account unlocks, and group membership verification
- Collaborated with cross-functional IT teams to escalate complex issues and support large-scale IT initiatives

OTWA Network Operations Centre Specialist – NOC (Co-op)

Rogers Communications | Brampton, ON | Jan 2019 – Apr 2019 | On-site

- Gained hands-on experience in Network Operations Centre workflows and monitoring protocols
 - Created and managed tickets for network issues using BMC Remedy, ensuring accurate tracking and timely resolution
 - Monitored network performance dashboards and escalated critical issues to senior engineers to minimize downtime
-
