

EMAN BUTT

Technical Support Analyst | Enterprise Applications & Infrastructure

Kitchener, ON | 647-564-7112 | ebutt8991@gmail.com | [Linked In](#)

PROFESSIONAL SUMMARY

Technical Support Analyst with 5+ years of experience delivering Tier 1–3 support for enterprise applications and end-user environments. Proven ability to troubleshoot complex application, operating system, and hardware issues while delivering reliable, customer-focused support in fast-paced IT environments. Experienced in supporting Microsoft Exchange, Active Directory, VPN connectivity, and network-related issues across Windows, macOS, and Linux. Strong foundation in root cause analysis, log investigation, and collaborating with engineering teams to resolve production issues. Background in Software Development (C#, SQL, ASP.NET) enables effective troubleshooting across application and infrastructure layers.

TECHNICAL SKILLS

Operating Systems:	Windows 10/11, Windows Server (2012–2022), macOS, Linux, iOS, Android

Support & Infrastructure:	Enterprise Application Support, End-User Support, Remote Support, Backup & Disaster Recovery
Programming & Scripting:	PowerShell, C#, SQL, JavaScript, Java, ASP.NET

PROFESSIONAL EXPERIENCE

Technical Support Analyst

Messageware Incorporated | Mississauga, ON | Apr 2021 – Present | Hybrid

- Provided Tier 1, Tier 2, and Tier 3 support for enterprise applications and IT infrastructure, serving as an escalation point for complex incidents
- Investigated and reproduced application and system issues in production environments, performing root cause analysis and delivering timely resolutions or escalations
- Collaborated with engineering teams by providing detailed issue analysis, reproduction steps, and technical context to accelerate resolution of complex issues
- Delivered customer training sessions during trial installations, configurations, and product rollouts
- Performed system patching, upgrades, and release testing, validating system behavior and identifying issues before deployment
- Wrote and executed SQL queries to support troubleshooting, data validation, and reporting needs
- Created detailed technical documentation, knowledge base articles, and process improvement guides
- Analyzed logs, system behavior, and configuration data to diagnose and resolve complex application and infrastructure issues

IT – Technical Support (Co-op)

Moen Incorporated | Oakville, ON | Apr 2020 – Sep 2020 | Hybrid

- Provided Level 1 desktop and end-user support to users across Canada and Latin America, assisting with hardware, software, and OS issues
- Deployed, configured, and prepared PCs and laptops for new employee onboarding
- Troubleshot Microsoft Office applications, Windows OS, and common application-related issues
- Documented resolved issues and followed established IT support procedures and escalation processes

Technology Service Centre Analyst (Co-op)

Region of Peel | Mississauga, ON | Aug 2019 – Jan 2020 | On-site

- Handled and completed 750+ IT service tickets, offering in-person and remote troubleshooting across multiple Peel locations
- Administered Active Directory accounts, including user provisioning, access control, and permission updates
- Delivered customer-focused support while adhering to IT policies, security standards, and service-level expectations

OTWA Network Operations Centre Specialist – NOC (Co-op)

Rogers Communications | Brampton, ON | Jan 2019 – Apr 2019 | On-site

- Gained hands-on experience in Network Operations Centre workflows and monitoring protocols
- Created and managed tickets for network issues using BMC Remedy, ensuring accurate tracking and timely resolution
- Monitored network alerts and system notifications, escalating issues to senior engineers as required

EDUCATION

Bachelor of Technology in Software Engineering Technology (In Progress)

McMaster University – W Booth School of Engineering, Hamilton, ON | May 2026 – Dec 2027

Advanced Diploma in Computer Systems Technology: Software Development & Network Engineering

Sheridan College – Brampton, ON | Jan 2018 – Dec 2020
