PROFESSIONAL EXPERIENCE

Technical Support Analyst

Messageware Incorporated | Mississauga, ON | Apr 2021 – Present | Hybrid

- Provided Tier 1, Tier 2, and Tier 3 support for enterprise applications and IT infrastructure, serving as an escalation point for complex incidents
- Designed and developed an internal server management tool using C# and PowerShell to streamline administration tasks across production environments
- Investigated and reproduced application and system issues in production, performing root cause analysis and delivering timely resolutions
- Collaborated with engineering teams by providing detailed issue analysis, reproduction steps, and technical context to accelerate resolution
- Performed system patching, upgrades, and release testing, validating system behavior before deployment
- Designed and implemented Veeam backup solutions for internal disaster recovery and business continuity
- Managed and maintained internal IT infrastructure, including configuration, implementation, and system upgrades
- Contributed to infrastructure migrations (Sophos Firewall, Veeam), validating configurations and resolving post-deployment issues

IT – Technical Support (Co-op)

Moen Incorporated | Oakville, ON | Apr 2020 – Sep 2020 | Hybrid

- Deployed and configured new PCs for employee onboarding and replacements
- Managed IT assets and inventory using company databases and tracking systems
- Supported Canada and Latin America users with desktop hardware and software issues
- Troubleshoot a variety of applications, including Adobe Cloud, SAP CustomerNet, and Microsoft Office suites

Technology Service Centre Analyst (Co-op)

Region of Peel | Mississauga, ON | Aug 2019 – Jan 2020 | On-site

- Handled and completed 750+ IT service tickets, offering in-person and remote troubleshooting across multiple Peel locations
- Administered Active Directory accounts, managing user provisioning, access control, and permission updates
- Collaborated with cross-functional IT teams to escalate complex issues and support large-scale IT initiatives

OTWA Network Operations Centre Specialist – NOC (Co-op)

Rogers Communications | Brampton, ON | Jan 2019 – Apr 2019 | On-site

- Gained hands-on experience in Network Operations Centre workflows and monitoring protocols
- Created and managed tickets for network issues using BMC Remedy, ensuring accurate tracking and timely resolution
- Monitored network performance dashboards and escalated critical issues to senior engineers to minimize downtime
